Description

TCS Jobs

Job Description: Junior Developer

Position: Junior Developer Location: Chinchpokli, Mumbai Company: TCS (Tata Consultancy Services)

Job Summary: We are currently seeking a talented and motivated Junior Developer to join our team at TCS. As a Junior Developer, you will be involved in software development projects, working closely with senior developers and technical leads to deliver high-quality solutions. Your primary responsibilities will include coding, debugging, and testing software applications. The ideal candidate for this position should have a strong foundation in programming languages, a passion for technology, and a desire to learn and grow as a software developer.

TCS Careers

Responsibilities:

1. Software Development: Collaborate with senior developers and technical leads to understand project requirements and contribute to the development of software applications. Write clean and efficient code using programming languages such as Java, C++, or Python. Implement software components and perform unit testing to ensure functionality and quality.
2. Bug Fixing and Troubleshooting: Identify and debug software issues,

investigate root causes, and propose solutions. Work closely with the team to resolve software defects and improve application performance. Conduct thorough testing and verification of bug fixes to ensure successful resolution.

3. Documentation and Reporting: Maintain accurate and up-to-date documentation of software features, design specifications, and coding guidelines. Generate reports on project progress, highlighting achievements, challenges, and potential risks. Communicate effectively with team members and stakeholders regarding project updates and deliverables.
